

North East Lincolnshire Modern Slavery Strategy 2023-2025

Modern slavery is a serious crime and a violation of fundamental human rights. The North East Lincolnshire Modern Slavery Partnership is committed to working collaboratively to tackle this form of exploitation, working within the North East Lincolnshire Outcomes Framework to ensure that "all people live in a safe environment".

The National Modern Slavery Strategy

The aim of the National Modern Slavery Strategy is to reduce significantly the prevalence of modern slavery in the UK, as well as to enhance the international response. Modern slavery is often an international crime and to tackle this requires strong collaboration. The overall aim of the Government's human trafficking strategy is to "tackle trafficking from end to end", from recruitment to exploitation, ensuring agencies have the right tools to allow them to do so. This is done through the "4Ps":

- **Pursue:** prosecute and disrupt individuals and groups responsible for modern slavery.
- **Prevent:** prevent people from becoming victims of modern slavery.
- **Protect:** strengthen safeguards against modern slavery by protecting vulnerable people from exploitation.
- **Prepare:** reduce the harm caused by modern slavery through improved victim identification and enforcement.

Definitions of Modern Slavery

The Modern Slavery Act 2015 was introduced to consolidate a number of international protocols and conventions. It encompasses slavery, servitude, forced or compulsory labour and human

trafficking. Modern slavery is hidden, often in plain sight; on our high streets, in local businesses and even suburban and rural homes.

Modern Slavery encompasses adult and child victims who rarely come forward to seek help due to many factors, including language barriers, threats, fear of the perpetrators, and fear of being criminalised. Unwittingly our communities may be using victims of modern slavery to wash our cars, paint our nails and lay our drives.

There are several broad categories of exploitation linked to human trafficking, which can include:

- Sexual exploitation
- Labour exploitation
- Child related
- Criminal exploitation – forced begging, illegal drug cultivation, organised theft, and related frauds
- Forced or sham marriage
